Very often I offer subscriptions to trainrides and tombolas. Every trainstation player is free to subscribe without any obligation.

So why this group? Well placing my offers in all other groups I am member of is quite a lot of work and besides that my entries disappear very quick because of the other groupmembers placing there own messages.

- Members that do not register in the member DB will be removed after one month

Groupmembers who are registered in my database gain access to GoldXchange - and Materials-Swap administration and by updating their level they automaticly subscribe to our active Tombolas.

#### IMPORTANT

Some members leave the FB group without any notification. That is ok when they also have removed their registration in the T&T member database. If they did NOT there's a big change they wil be blocked by the sponsors of the tombolas, resulting in never getting their ponsored prizes again. In fact they may be blocked forever by the sponsor(s). The only thing we require is at least a monthly update of your ts-level, preferably in the week before the second tuesday of the month. Never the less updating your level is a good way to receive the level update prize more often.
