

A record of a SWAP

Swap details report summary:

This document is created after the moment the swap owner by accident did send his wished materials to the acceptor. As of that moment the timeline of the swap starts in this document.

It shows not only the further progress of the swap, but also how the accidentally send of nails is corrected by the acceptor by recording a negative amount of sent nails in his detail send records.

As positive result of this swap. The used software will get an update. The send and receive records shall get a comment field making it possible to record extra info if necessary. Such as sending other materials than offered or record why a correction has been made

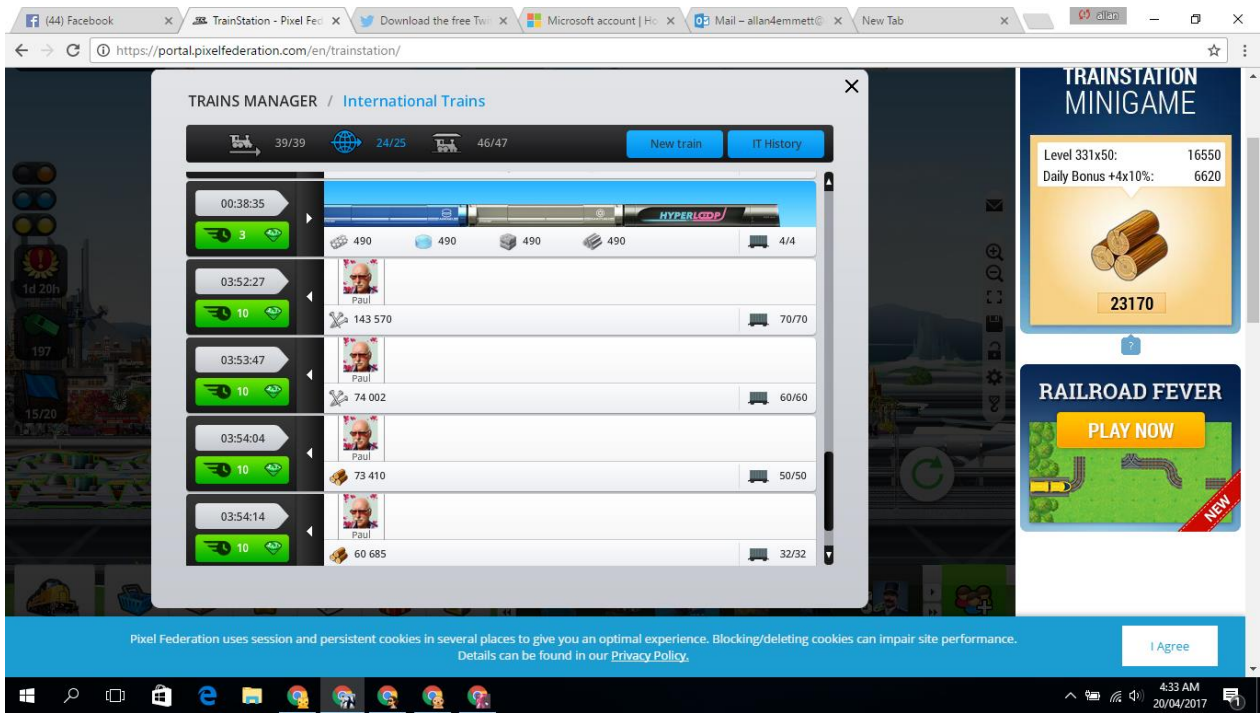

Special thanks to Allan Healy.

The accidentally sent nails (143570 and 74002) are not taken in account yet

2017-04-21 Status – the swap owner did send the offered wood

Offer Still to send is negative because the 'offer sent' = 810603 i.e. 10603 more than the offer

SwapName	Owner	Wish	Wish Amount	Wish Received	Still To Receive	Offer	Offer Amount	Offer Sent	Still To Send	Acceptor	Finished	Date
nails	Allan Healey	Nails	800.000	665483	134.517	Wood	800.000	810.603	-10.603	Paul van der Want		2017-04-21

The swap Owner actually sent 10.603 to much (thanks, says the acceptor) .

Correction of the nails that were sent by the owner to the acceptor. The acceptor records two negative send entries , resulting in him having to send that amount extra (actually in doing so returning the accidentally sent nails, the wish received and still to receive have changed.

wish=Nails offer=Wood												
nails by Allan Healey wish=Nails offer=Wood									-74.302			2017-04-21
nails by Allan Healey wish=Nails offer=Wood									-143.570			2017-04-21

New Status wish received = 665483 – (143570+74302) = 447611

SwapName	Owner	Wish	Wish Amount	Wish Received	Still To Receive	Offer	Offer Amount	Offer Sent	Still To Send	Acceptor	Finished	Date
